

ADVANCED PLACEMENT

NOTE: Students are not permitted to retake courses for which they will receive AP credit. Advanced Placement and/or credit awards are given to students who have participated in the College Board AP Program and who have scored 4 or higher in subject area tests. When you request your scores, remember to request them for every test you took while in high school. You can request them at 609.771.7300 or 888.225.5427 or apexams@info.collegeboard.org. A complete table of AP credit and placement for each subject area follows. If you have not received your AP test results before registration begins, register for classes and then adjust your courses, if necessary, when you receive your scores.

Your AP/IB credit can positively impact your registration time for the spring semester; therefore, it is important that all of your credits are posted. Please check your unofficial transcript or your degree audit to verify everything is there. If something is missing, please contact your Academic Advisor at **504.865.5798** for assistance. Our office receives test results throughout the year. No more than four credits of English or a foreign language will be awarded to any student, even if the student has a qualifying score in both Language and Literature tests.

Students interested in pursuing careers in the health field should consult the pre-professional advisor about their AP/IB credit.
